Education

Duke University | Durham, US
School of Medicine

Master of Management in
Clinical Informatics

Duke University | Durham, US
The Fuqua School of Business
Certificate of Innovation
and Entrepreneurship

University of Verona | Verona, Italy
School of Medicine
Bachelor of Nursing

Skills

Strategy & Advisory

Executive consulting, KPI frameworks,
healthcare digital transformation,
product strategy, go-to-market

Investment & Venture

Market analysis, startup due diligence,
portfolio evaluation, venture capital

Informatics & AI/ML

NLP/LLM systems, predictive
modeling, RAG architecture, clinical
analytics, EHR data (Epic Clarity),
FHIR/HL7, OMOP CDM

Technical Stack

Python, PyTorch, TensorFlow, Hugging
Face, LangChain, BigQuery, Dataform,
Dataplex, Looker Studio, SQL, MySQL
— AWS, Azure, Google Cloud —
GitHub, Jira, Figma, Asana

Leadership

Cross-functional team management,
stakeholder alignment, grant strategy,
research operations

Michele Tadiello

Healthcare AI and informatics leader with 6+ years building clinical AI systems and data strategy across academic medical centers, health systems, and startups. Published researcher in clinical NLP and LLM applications – JAMA Network Open, JAMIA and trusted advisor to C-suite leaders across AI/ML, healthcare operations, and venture.

Professional Experience

Hackensack University Medical Center

Office of Medical Affairs

Clinical Informatics Engineer | 2025–Present | Hackensack, NJ

- Established data engineering best practices for team collaboration by architecting a standardized pipeline – Google BigQuery + Dataform + Dataplex + GitHub for reproducible, scalable data workflows.
- Serve as strategic data advisor to the Chief Medical Officer and VP, aligning analytics priorities with organizational goals and operational planning.
- Built Looker Studio dashboards for Emergency Department leadership tracking medication administration times, MRI/CT turnaround times, and operational bottlenecks to support staffing and throughput decisions.

Columbia University Irving Medical Center

Center for Community-Engaged Health Informatics and Data Science

Senior Informatics Specialist | 2024–2025 | New York, NY

- Architected and launched the institution's first fine-tuned LLM + RAG conversational AI assistant, delivering 4-second response times across 10,000+ pages of clinical content.
- Built and deployed the Columbia School of Nursing's first GPU computational infrastructure, enabling 10+ research studies and directly supporting \$21M+ in active federal grants.
- Delivered AWS SageMaker AI training and demos across Columbia research teams, enabling cloud ML adoption and accelerating deployment capabilities institution-wide.
- Extracted and analyzed millions of patient records from the NYP/Columbia data warehouse to support clinical NLP research, contributing to peer-reviewed publications.
- Appointed as Computational Taskforce Expert and IT Custodian; shaped institutional AI and infrastructure strategy at the leadership level.

One Fact Foundation

Chief Digital Officer | 2022–2023 | Brooklyn, NY

- Launched a public healthcare-cost dashboard serving 8M+ New York residents, translating complex claims data into actionable consumer intelligence.
- Collaborated on development of an open source AI-powered upper extremity radiology analysis tool, piloting the solution with Columbia University Medical Center.
- Defined data standards for healthcare price transparency and co-authored a peer-reviewed OHDSI publication expanding the OMOP Common Data Model.
- Developed and delivered a healthcare claims analytics training program for union organizations representing 200,000+ employees.
- Secured \$100K in grant funding by developing and pitching the strategic case for statewide digital transformation in healthcare price transparency.

Duke University

Pratt School of Engineering

Fellow, Design Health Program | 2022 | Durham, NC

- Led interdisciplinary team in developing AI medical device prototype following FDA regulatory specifications and requirements, focusing on tracking Hypoplastic Left Heart Syndrome (HLHS) patients.
- Designed the data mapping architecture between novel medical devices and the EHR system to enable real-time monitoring and timely escalation of emergency care for HLHS patients.

Health System

IT Analyst | 2022 | Durham, NC

- Administered network security, user access controls, and HIPAA compliance protocols across Duke University Health System infrastructures.
- Supported Epic EHR operations and hardware systems; documented technology asset to ensure operational continuity.

University Hospital of Verona

Registered Nurse & Data Analyst | 2020 – 2021 | Verona, Italy

- Analyzed COVID-19 case trends across four hospitals and presented data-driven containment recommendations directly to board leadership.
- Mentored 5 nursing students through clinical rotations, supporting performance evaluations and competency assessments.

Misericordia di Firenze

Partner, Homecare Delivery Clinic | 2018–2019 | Florence, Italy

- Drove 20% revenue growth through financial modeling and demand forecasting, while implementing healthcare software to increase daily patient capacity.
- Developed strategic partnerships and operational initiatives based on market analysis and customer insights.
- Created an operational plan to improve employee satisfaction and reduce turnover while enhancing care quality metrics.

Teaching, Training Experience

- Designed and taught “Introduction to Machine Learning” for 50+ interdisciplinary healthcare professionals – physicians, nurses, engineers, biologists (SIAM) | 2024

Service, Media Contributions

- Co-authored Italian translation of “Ethics and Governance of Artificial Intelligence for Health: Guidance on Large Multi-Modal Models” *Zadig SRL / World Health Organization* | 2024
- Co-authored “Generative AI in Healthcare” *TrendSanità, Policy & Procurement in Healthcare Publisher* | 2024
- Ad-hoc reviewer: International Journal of Medical Informatics
- Ad-hoc reviewer: JMIR Medical Informatics
- Ad-hoc reviewer: JAMIA, Journal of the American Medical Informatics Association

Professional Association

- **Scrub Capital** | 2025–Present | US
VC firm powered by clinicians, operators, and digital health experts. Active member contributing to deal evaluation and strategic analysis of AI and healthcare innovation opportunities.
- **America Medical Informatics Associate** | 2024–2025 | US
Represented Columbia University School of Nursing; participated in Nursing Informatics Working Group Leadership meetings.
- **Italian Society of Artificial Intelligence in Medicine** | 2023 – Present | Italy
Spearheaded AI adoption initiatives for the Italian healthcare workforce; developed educational programs and workshops to enhance AI literacy in medical practice.
- **Nova Talent** | 2023–Present | Europe
Selective merit-based global professional network.
(25,000+ members across 80+ countries).
- **Duke Graduate Professional Student Government** | 2021– 2022 | US
Represented and advocated on behalf of the MMCi program.

Publications

- Scroggins, J. K., Hulchafo, I. I., Harkins, S., Tadiello, M., et al. | 2025
Documentation of stigmatizing language in electronic health records and Birth Outcomes. *Health Equity*.
- Zhang, Z., Scroggins, J. K., Harkins, S., Tadiello, M., et al. | 2025
Toward equitable documentation: Evaluating ChatGPT's role in identifying and rephrasing stigmatizing language in electronic health records. *Nursing Outlook*.
- Hulchafo, I. I., Scroggins, J. K., Harkins, S., Tadiello, M., et al. | 2025.
Stigmatizing and Positive Language in Birth Clinical Notes Associated With Race and Ethnicity. *JAMA Network Open*.
- Hulchafo, I. I., Scroggins, J. K., Harkins, S., Tadiello, M., et al. | 2025
Assessing the quality and performance of synthetic data augmentation for detecting stigmatizing language in obstetric clinical notes. *APHA 2025 Annual Meeting and Expo*.
- Hulchafo, I. I., Scroggins, J. K., Harkins, S., Tadiello, M., et al. | 2025
In Response to "Exploring natural language processing as a tool to improve in obstetric documentation and care." *International Journal of Obstetric Anesthesia*.
- Scroggins, J. K., Hulchafo, I. I., Barcelona, V., Tadiello, M., et al. | 2025
Identifying stigmatizing and positive/preferred language in obstetric clinical notes using natural language processing. *Journal of the American Medical Informatics Association*.
- Altosaar, J., Tadiello, M., & Zelko, J. S. | 2023
Expanding the OMOP Common Data Model in Accord with Federal Rules for Hospital Price Transparency and Transparency in Coverage. *OHDSI*.

Volunteer

- **Equal Opportunity Commission Between Men and Women** | Verona, Italy | 2019–2021
Promoted gender equality policies and initiatives to prevent violence against women.
- **LNDC Animal Protection ONLUS** | Verona, Italy | 2015–2019
